Join us to align your personal energy to the field of oneness

Oneness is the ultimate vibration! Each Sunday we gather to align our personal energy field to the vibration of oneness. Breath and consciousness connect us to Source/AllthatIS and Divine Earth. Intention and invocation aligns us to receive divine love and support from cosmic and earth realms. We are nurtured by the light and love of the cosmos integrated with that of our sacred earth, flowing to and from each through the One Heart of AllThatIs.

We anchor and filter the energy of oneness through our human fields of:

Mind/Heart

Body/Earth

Creator/Creation

This is an interactive oneness group where each holds space for another's healing and empowerment. Group energy treatments and personal spirit messages support renewal, balance and guidance. Goddess Light and Metaphysician, Tauheedah, creates safe space and delivers spirit messages to help clarify your journey. Walk away connected to divine love, life purpose and support for moving your life forward.
